Hi –

Would the end of next week work? Or the beginning of the following week? I think it would be good if Lucita could be there, because she and I have been working with the UIC program on this issue for nearly a decade. I can check with Kimi to see if she wants to be there.

Thanks for setting it up and for helping get this all straightened out and on a good path.

Erin

I can get something on the calendar. What kind of time do you need to pull it together? And who do you think should be there other than them, you, me, and Brian?

Hey –

How do you want to handle scheduling a meeting with Sara and Douglas re. NEPA functional equivalence?

Thanks,
Erin
